

A close-up photograph of a dark, textured leather chair. The image shows the corner of the seat and backrest, with a prominent tufted detail where the two sections meet. A decorative, raised seam runs diagonally across the lower right portion of the frame. The lighting is soft, highlighting the grain of the leather.

In the '80s, its sofas with their casual style, coloured leather and beguiling comfort conquered the hearts of consumers all around the world. At the start of the '90s, the Natuzzi Group was listed on Wall Street.
